

Usman Tariq

usman.tariq@email.com | +92-311-2233445 | Islamabad, Pakistan | github.com/usman-tariq

Professional Summary

Highly dedicated DevOps Engineer with 2.5 years of hands-on experience in building and optimizing robust CI/CD pipelines, containerization, and managing cloud infrastructure on AWS. Proven expertise in Docker, Kubernetes, Terraform, and GitHub Actions, alongside strong capabilities in Linux system administration and comprehensive monitoring solutions. Committed to streamlining deployment processes, enhancing system reliability, and contributing to scalable and efficient cloud environments.

Skills

DevOps:

Docker Kubernetes Terraform Ansible GitHub Actions Jenkins

Cloud Platforms:

AWS (EC2, EKS, S3, RDS, Route53, IAM, CloudWatch)

Monitoring & Logging:

Prometheus Grafana ELK Stack (Basic)

Operating Systems & Tools:

Linux (Ubuntu/CentOS) Bash Scripting Git Nginx PM2

Experience

DevOps Engineer, CloudNest Pvt Ltd

Islamabad | Feb 2023 – Present

- Architected and maintained scalable CI/CD pipelines utilizing GitHub Actions, leading to a 40% reduction in deployment time and increased release frequency.
- Containerized 8 critical microservices using Docker and orchestrated their deployment and scaling on AWS EKS with Kubernetes.

- Provisioned and managed cloud infrastructure across development, staging, and production environments using Terraform (Infrastructure as Code) on AWS (EC2, S3, EKS, Route53, IAM, CloudWatch).
- Implemented comprehensive monitoring and alerting systems with Prometheus and Grafana for over 15 services, ensuring high availability and proactive issue resolution.
- Managed Nginx reverse proxy configurations, SSL certificate lifecycle, and optimized domain routing using AWS Route 53, enhancing application security and accessibility.

Junior Systems Engineer, TechBase

Islamabad | Aug 2022 – Jan 2023

Solutions

- Administered and maintained Linux servers (Ubuntu/CentOS), including user permissions, service management, and cron job scheduling.
- Assisted in the successful migration of on-premise services to AWS cloud infrastructure, specifically leveraging EC2 and S3 for scalable storage and compute.

Education

BS Computer Science — COMSATS University, Islamabad

2018–2022 | CGPA: 3.3
