

Zara Khan

zara.khan@email.com | +92-333-5554321 | Islamabad, Pakistan | github.com/zarakhan-ui

Professional Summary

Results-driven Frontend Developer with 1.5 years of experience specializing in building robust, responsive, and high-performance web applications using **React.js**. Proven ability to implement sophisticated state management with **Redux Toolkit** and **Context API**, and expertly integrate **RESTful APIs**.

Passionate about creating intuitive user interfaces and continuously optimizing web performance, with a strong interest in evolving into a full-stack engineering role.

Skills

Frontend Technologies:

React.js, JavaScript (ES6+), TypeScript (Basic), HTML5, CSS3, Tailwind CSS

State Management:

Redux Toolkit, Context API, Zustand (Basic)

API Integration:

REST APIs, Axios, Fetch API, React Query (Basic)

Tools & Platforms:

Git, Figma, Vite, npm, VS Code, Chrome DevTools

Experience

Frontend Developer

Sep 2023 – Present

PixelCraft Studio | Islamabad

- Developed and maintained **5+ client-facing dashboards and landing pages**, leveraging **React.js** and **Tailwind CSS** for modern, responsive user interfaces.
- Efficiently integrated **REST APIs** using Axios, ensuring robust handling of loading states, errors, and empty data scenarios to enhance user experience.
- Managed application-wide state using **Redux Toolkit** and **Context API**, streamlining data flow and improving component reusability.

- Significantly improved web performance, boosting **Lighthouse scores from 62 to 91** through strategic implementation of lazy loading and code splitting.
- Collaborated closely with UI/UX designers in Figma to translate wireframes and mockups into pixel-perfect and accessible UI components.

Frontend Intern

Mar 2023 – Aug 2023

Webify Agency | Remote

- Contributed to the development of a reusable component library, building **30+ interactive components** using React and Styled Components.
- Addressed and resolved various cross-browser compatibility issues, enhancing mobile responsiveness across multiple client projects.

Projects

ExpenseTrack – Personal Finance Dashboard

A React-based dashboard designed to help users track income, expenses, and savings goals with intuitive data visualizations.

- Developed a comprehensive dashboard using **React.js**, providing real-time financial insights.
- Implemented global state management with **Redux Toolkit** for efficient data flow.
- Styled the application using **Tailwind CSS** and integrated **Chart.js** for interactive data visualization.
- Utilized a mock **REST API (json-server)** to simulate backend interaction and data fetching.

Education

Bachelor of Science in Information Technology

2019 – 2023

COMSATS University, Islamabad | CGPA: 3.5/4.0
