Professional Summary

A dedicated Mobile Developer with 2 years of hands-on experience in building and deploying high-quality cross-platform iOS and Android applications using React Native. Proven expertise in state management with Redux Toolkit and React Query, REST API integration, push notifications, and managing the full app lifecycle from development to successful app store deployment on both Google Play and Apple App Store. Adept at creating intuitive user experiences and contributing to application performance, with a strong focus on clean code and efficient development practices.

Skills

Mobile Development: React Native, Expo, React Navigation, Redux Toolkit, React Query, Push Notifications (Firebase FCM), App Store Deployment

APIs & Services: REST APIs, Axios, Firebase (FCM, Auth, Firestore basic)

Web Technologies: JavaScript, React.js, HTML, CSS

Tools & Platforms: Git, Android Studio, Xcode (basic), Postman, VS Code, Figma

Experience

React Native Developer

Mar 2023 – Present

AppForge Studio | Karachi

- Played a key role in the end-to-end development and successful deployment of 3 cross-platform mobile applications (iOS and Android) to production.
- Seamlessly integrated RESTful APIs using Axios, implementing robust error handling and efficient offline data caching strategies with AsyncStorage to enhance user experience.

- Implemented and configured push notifications using Firebase Cloud Messaging (FCM) for 2 production applications, ensuring timely and reliable user engagement.
- Managed complex application state effectively using Redux Toolkit and handled server state management with React Query, leading to predictable and scalable applications.
- Expertly managed the app release process, including signing, build configuration, and publishing to both Google Play Store and Apple App Store.

Junior Mobile Developer

Sep 2022 – Feb 2023

Mobify Labs | Karachi

- Developed and maintained a library of reusable UI components and screens for a large-scale e-commerce mobile application, ensuring consistency and accelerated development.
- Contributed to improving application stability and user experience by diagnosing and resolving bugs within an existing React Native codebase.
- Actively participated in performance optimization efforts for the existing application, contributing to a smoother user interface and faster load times.

Education

BS Software Engineering — NED University

2018–2022

Karachi | CGPA: 3.5
